Dr. Byrd:

The Immunization Collaboration of Tarrant County has enjoyed working with Tarrant County Public Health to support “back to school” immunizations for many years. Our partnership has helped immunize tens of thousands of children across Tarrant County. One of the reasons for our success is the extended hours that we offer to help increase access for the families we serve.

This year, the collaboration is donating \$10,000 to help defray the increased personnel costs of the events. This donation will help ensure that we can continue the extended hours to maximize access to “back to school” immunizations.

We look forward to working with you.
