BACKGROUND

On November 12, 2024, the Commissioners Court, through Court Order #144160, awarded RFP No. F2024161, Construction Manager at Risk for Plaza Parking Garage Expansion, for Facilities Management, to HM & MF Ltd. d/b/a Muckleroy & Falls.

The expansion of the Plaza Parking Garage will provide an additional eight-level bay on the exterior of the west side of the building. This will provide an additional 303 parking spaces for a total of 800. The Construction Manager at Risk project will be completed in two (2) phases. Phase I - Pre-Construction Services will include finalizing the design, conduct value engineering, develop construction schedule, develop and award trade bid packages, and prepare a Guaranteed Maximum Price. Phase II - Construction Manager Services includes all normal services associated with the construction of the facilities for the project described.

To complete the Plaza Parking Garage Expansion Project, the City of Fort Worth requires a Community Facilities Agreement (CFA) to be in place. The CFA allows the County to design and construct utility improvements within the public right-of-way, including sewer, paving, streetlights, and a traffic signal, all of which are specifically for the Plaza Parking Garage Expansion.

The total estimated cost of these improvements is \$1,826,216.19 and is included in the Guaranteed Maximum Price (GMP) provided by HM & MF Ltd. dba Muckleroy & Falls. As part of the permitting process, the City of Fort Worth requires a payment of \$76,225.00 for inspection and material testing to ensure the improvements are constructed in accordance with city standards. City and Developer are referred to herein individually as a “party” and collectively as the “parties.”

WHEREAS, Developer is constructing private improvements or subdividing land within the corporate limits of Fort Worth, Texas or its extraterritorial jurisdiction, for a project known as Tarrant County Plaza Parking Garage Expansion (“Project”); and

WHEREAS, the City desires to ensure that all developments are adequately served by public infrastructure and that the public infrastructure is constructed according to City standards; and

WHEREAS, as a condition of approval of the Project, Developer is required to meet the additional obligations contained in this Agreement, and Developer may be required to make dedications of land, pay fees or construction costs, or meet other obligations that are not a part of this Agreement; and

WHEREAS, the City is not participating in the cost of the Improvements or Project; and

WHEREAS, the Developer and the City desire to enter into this Agreement in connection with the collective Improvements for the Project;

NOW, THEREFORE, for and in consideration of the covenants and conditions contained herein, the City and the Developer do hereby agree as follows:

The engineering plans for the Improvements that have been approved by the City (“Engineering Plans”) are incorporated into this Agreement by reference as if fully set out herein. Developer shall provide at its expense, unless otherwise agreed to by City, all engineering drawings and documents necessary to construct the Improvements required by this Agreement.

- Exhibit F: Traffic Signal & Striping

The Location Map and Cost Estimates are also attached hereto and incorporated herein by reference. If applicable, Attachment 1 – Changes to Standard Community Facilities Agreement, Attachment 2 – Phased CFA Provisions, and Attachment 3 – Concurrent CFA Provisions, are attached hereto and incorporated herein for all purposes.

**4.
Construction of Improvements**

Developer agrees to cause the construction of the Improvements contemplated by this Agreement and that said construction shall be completed in a good and workmanlike manner and in accordance with all City standards and specifications, the Engineering Plans, the Cost Estimates provided for the Improvements, and this Agreement. - (c) If the Financial Guarantee is a Completion Agreement and the Developer's contractors or suppliers are not paid for construction costs or materials supplied for the Improvements the contractors and suppliers may place a lien upon any property which the City does not have an ownership interest that is the subject of the Completion Agreement.
- (d) Nothing contained herein is intended to limit the Developer's obligations under the CFA Ordinance, this Agreement, the Financial Guarantee, Developer's agreements with Developer's contractors, or other related agreements.

8.

- (c) Developer will require Developer's contractors to provide the City with payment and performance bonds naming the City and the Developer as dual obligees, in the amount of one hundred percent (100%) of the cost of the Improvements as required by the CFA Ordinance. The payment and performance bonds shall guarantee construction of the Improvements and payment of all subcontractors and material suppliers. Developer agrees to require Developer's contractors to provide the City with a maintenance bond naming the City as an obligee, in the amount of one hundred percent (100%) of the cost of the Improvements, that guarantees correction of defects in materials and workmanship for the Improvements by the contractor and surety for a period of two (2) years after completion and final acceptance of the Improvements by the City. All bonds must be provided to the City before construction begins and must meet the requirements of the City's Standard Conditions, Chapter 2253 of the Texas Government Code, and the Texas Insurance Code.
- (d) Developer will require Developer's contractors to provide the City with insurance equal to or in excess of the amounts required by the City's standard specifications and contract documents for developer-awarded infrastructure construction contracts. The City must be named as an additional insured on all insurance policies. The Developer must provide the City with a Certificate of Insurance (ACORD or form approved by the State of Texas), supplied by each contractor's insurance provider, which shall be made a part of the Project Manual.
- (e) Developer will require the Developer's contractors to give forty-eight (48) hours' advance notice of their intent to commence construction of the Improvements to the City's Construction Services Division so that City inspection personnel will be available. Developer will require Developer's contractors to allow construction of the Improvements to be subject to inspection at any and all times by the City's inspectors. costs that may be incurred by Developer in the relocation of any utilities that are or may be in conflict with any of the Improvements to be constructed pursuant to this Agreement.

**11.
Easements and Rights-of-Way**

Prior to execution of this Agreement, Developer has paid to the City the estimated cost of administrative material testing service fees, construction inspection service fees, and water testing lab fees in the amounts set forth in the Cost Summary section of this Agreement. Upon completion of the

construction of the Improvements, the City will reconcile the actual cost of administrative material testing service fees, construction inspection service fees, and water testing lab fees with the estimated fees paid by Developer. If the actual costs of the fees are more than the estimated payments made by the Developer, the Developer must pay the difference to the City before the Improvements will be accepted by the City. If the actual costs of the fees are less than the estimated payments made by the Developer, the City will refund the difference to the Developer. If the difference between the actual costs and the estimated payments made by the Developer is less than fifty dollars (\$50.00), the City will not issue a refund and the Developer will not be responsible for paying the difference. The Developer must pay the material testing laboratories directly for all material testing and retesting. The City will obtain proof from the material testing laboratories that the material testing laboratories have been paid in full by the Developer before the City will accept the Improvements.
